Quality Holiday Rentals in the beautiful moorish beach village in Spain

During the heat of the day the village is a sleepy place when the visitors are sporting themselves on the beach and the villagers are taking their siesta, and even the cats show no signs of life as they doze on sunny doorsteps. But at dusk the village awakes as visitors and locals stroll though the narrow streets and join the lively chatter from the countless little bars. Mojácar illuminates and from the valley below, looks like the fairy lights on a Christmas tree.

The very different world of Mojácar beach just a couple of minutes below the village has all the facilities of a modern beach resort with miles of sand and numerous beach bars, restaurants and shops. For those looking for something more energetic than basking on the beach or floating on the shimmering blue Mediterranean, all manner of water sports can be enjoyed including windsurfing and sailing. Peace and seclusion though are not very far away, for just a mile or so past the Hotel Indalo are Tower Beach and Treasure Island Cove, both popular with naturists.

Sporting enthusiasts staying at Mojácar do not have to confine their activities to the water. There are numerous golf courses located close by, such as Marina del la Torre, Macenas, Valle del Este, or Desert Springs. In the near by mountains Cortijo Grande and Cabrera you can find superb restaurants which have spectacular views of the mountain scenery.
