

3 Bedroom Apartment for Sale in Garrucha

215,000€

Here, as you can see in the pictures, we have a wonderful penthouse, renovated at the end of 2020 with high quality materials. This penthouse is located in Garrucha, in an area a few meters from the beach with a supermarket just across the street.

If we take into account the area and these details, it becomes quite a unique and privileged product, and also has its own parking space inside the building.

If we go up the elevator of the building and enter the attic, we find a large room, which in its day, was going to be used as the main living room of the house. In this room, we also have access to the terrace of the house, which is 100m². From there, we re-enter the house, and we go to what could be called the "corridor" of the house, from here, we have access to the kitchen, a bathroom and the 3 "bedrooms" of the house. One of the bedrooms has an en-suite bathroom and a private balcony.

If your interested, and would like to visit, don't hesitate in contacting us.
